Together: we're *Mapping Perforation*

Changing Times ...

Dear Very Important Philatelist (UPA V.I.P.),

In these days of Doom and Gloom we're going to talk about something different, because we don't see 'D & G' in our collections, rather we see that in collecting, Philately harbours **Solace, Happiness and Peace**. To my mind what's good for the soul offers respite from everyday woe.

Six years ago, Stanley Gibbons (then) new Managing Director came to visit us because UPA was (and possibly still is) SG's biggest advertising client. In addition to talking about UPA as SG's client, naturally we touched upon the future, ideas and possible plans for SG ...

It was then that I offered Stanley Gibbons MD a little idea that I had been toying with which might revolutionise the precise nature/tedious, but rather important job of counting the number of perforations within 2 centimetres upon the edge of stamps. I thought – when you put it that way Andrew, it's not hard to see why following generations may not be as interested in collecting stamps as we are!

And so, I suggested that SG build an 'APP' to go onto the screen of collector's mobile phones – the idea being that collectors could access their SG 'Instanta' Perforation Gauge *anywhere* upon the screens of their mobile phones and be able to 'run' a stamp's perforation along the converging lines until matching lines with perforations – thereby determining the perforation measurement to more difficult stamps.

Because SG held the (probably expired) copyright to their 'Universally' used 'Instanta' Perforation Gauge and UPA was their biggest advertising client ... I took the view that anything to help SG may help philately (and UPA). I think I heard the words 'Good idea' ... and that was that 6 years ago!

Evidently nothing happened ... but something happened to me, because I couldn't let go of the idea. After all I can think of more than one stamp worth little in one perf (P.14) ... and specifically £95,000= in another (P.12), plus countless desirable stamps worth £100's to £1,000's more in scarce difficult to detect other perforations which are frequently encountered misidentified in collections and auction lots ...

Time moved on ... and so imperceptibly did UPA as we accessed increasingly hi-technology in our perforation project! The wonder was that we could afford it. Long story short ... today ... for the very first time we present you UPA V.I.P.'s ... **Digital Perforation Reader** – Digi-Perf-Reader ... aka **DPR**.

The first thing to understand is that DPR technology is a TOOL ... and tools used well may provide solutions, but as we age with eyesight and co-ordination what a useful tool this might be? In the same surprising way that UPA auctions succeed by 'scale', I envisage that if increasing numbers of collectors register to test UPA VIP's Digi-Perf-Reader ... **DPR ... then automatic Digital Perforation Reading may be a portent of the Philatelic future for those of us that elect to share ...** (Private use is the default).

You will find that there are several pages more about DPR and an incredibly agile **QR Code for you to seamlessly access the DPR system from your mobile smart-phone camera, register for £1 and we will mail your DPR card to you wherever you are so that you can test the system upon stamps in your own collection and save your results upon your own device ...** Please read all about it, because with your support there's plenty more to come as we roll **DPR technology out internationally to Collectors Worldwide ...**

Meanwhile, time to get on with the show ... and it's a **BIG** one ... Please join the 1,448 different collector bidders from 49 different countries who bid in UPA95 to make your 29,184 lots UPA96 equally successful ... Happy Hunting, *Successful Bidding!*

Please enjoy this catalogue and UPA VIP/DPR because if we are all to thrive and survive, we need your participation. Best wishes and thanks ...

... and the UPA Team
Dedicated to De-mystifying Philately

Andrew's Ramble ... You will be the Judge ...

If collectors determine that DPR's use of Facial Recognition Technology may be of potential future philatelic value to them ... then, I believe that there may be a 'bigger' picture here by pulling collectors together internationally and 'pooling' Philatelic knowledge and resource ... Please read *The Mission / The V I S I O N* upon the DPR info pages ... Thank You

We will be on answerphone when the auction closes at 5pm on 7th January until 11am on Monday 13th January, while we process bids and issue invoices/results. Due to the incredible number of telephone calls we receive after the auction, we are forced to limit telephone calls from

Please note: we are not open weekends or bank holidays.

THE UPA REDUCING ESTIMATE SYSTEM

• Each auction is a compilation of both high and lower value material, with some of the high value material owned by vendors and some by UPA. Our belief is that if an item is not selling, it is too expensive. This formula permits us to offer the Unique UPA Reducing Estimate System so that if an item does not sell, it will be reoffered in the next catalogue with the estimate reduced by 11%, and the item will be flagged to show that it has been previously unsold.

• Each time that item does not sell, it will be reoffered and the estimate will reduce by 11%, then 12%, 13%, 14% etc. This allows items to find their own market value, e.g. ...

• A lot is offered for the first time with an estimate of £100, but it does not sell.

• The lot is reoffered in the next auction with an estimate of £89, but it does not sell.

• The lot is reoffered in the next auction with an estimate of £78, but it does not sell.

• The lot is reoffered in the next auction with an estimate of £67, etc. ...

(Estimate reductions are 'ramped' as above as each time a lot is unsold).

• Bids below 80% of estimate have no chance of success.

• After the auction has closed, on the Friday evening we publish the UNSOLDS list of all lots that may be purchased at 80% of estimate.

• Lots that are previously unsold are denoted US at the end of the description, e.g. ... US - previously unsold US2 - previously unsold twice US3 - previous unsold three times etc.

• Once a lot has been unsold five times or more and if the estimate has fallen to £20 or less, that lot drops into the BABS category (see below).

BABS: BAG A BARGAIN SYSTEM

• BABS lots are those items which have been unsold 5 times or more (marked US5, US6 etc.) and have estimates of £20 or less.

• BABS lots are denoted by (B) at the end of the description.

• These lots start at 99p and you can bid any amount you wish, at or above this level.

• Standard bid steps (tie-breaks) apply to BABS lots so if you do not wish bid steps to apply to BABS lots, please indicate this clearly on your bid form.

BID AMOUNTS

• We do not accept BUY bids as this is unfair to other bidders.

• If you are prepared to pay a multiple of the estimate price for a particularly rare item please enter your maximum price, but beware that another bidder may also recognise special value in the same item and bid accordingly. We therefore recommend that you only enter the maximum you are prepared to pay.

• You can bid any amount you choose, subject to the minimum amounts:

- Non-BABS lots: minimum bid 80% of estimate
- BABS lots: minimum bid 99p

• Conditional (either/or) bids are accepted - please clearly denote this on your bid form.

• Bids steps (up to 3) can be used to increase your bid in the event that equal bids are received (the early bidder wins a tied bid). Bid step increments are subject to your bid value - see HOW TO COMPLETE YOUR BID FORM (page 400) for full details.

• Please do not state bid an extra X% - please bid in actual GBP amounts, or use bid steps if you prefer.

• Bids must be placed in GBP.

ESTIMATES

• Estimates are based upon condition and current market value.

• All estimates and catalogue prices are in £ GBP and all catalogue prices are S.G. unless otherwise stated.

• We will state where another catalogue is used and if a foreign currency, we will show the value in Pounds Sterling equivalent.

• All non BABS lots: **bids below 80% estimate will be respectfully declined. Bidders wishing to purchase such lots for less may have the opportunity to do so in subsequent auction(s).**

BUYER'S PREMIUM - there isn't one! If you are a new client, you may qualify for our Introductory Offer* (£55 GBP discount if you spend/win £75 GBP or more)

Postal Auction UPA96

Live Bidding - Wednesday 8th January, 5pm

The majority of lots in our auctions are owned by UPA, but a little while ago we introduced our **UPA Vendor** service whereby we will offer to sell more valuable items for vendors on a commission basis. Some of these vendors requested increased use of the internet for greater exposure, and in order to accommodate vendor requirements, we are offering **LIVE INTERNET BIDDING** on the following **289 LOTS** listed below.

You can still bid normally on these lots by post, fax, email, online and telephone before the 5pm (UK time) Tuesday 7th January deadline. Your bids will be confidential so that a **live** internet bidder will be bidding against bids which are on the book.

Live Internet Bidding is available upon the following lots only:

DO YOU 'APPROVE?'

You may not know it but 47 years ago, as a teenager, I received stamps sent 'on approval' from Omniphil. 17 years later in the mid-1980's I bought the company and added Avon Approvals (and mixtures) to make one of the biggest 'stamps on approval' businesses today in the UK... 1,000,000+ stamps, 7,000+ stamp books in our library, all for your choice

If you're looking for general or single country selections of individually / unit priced stamps sent to you upon approval – so that you select those you want and return those you don't want... If you can spend an average of £20 upwards per selection sent, you'll receive a very generous discount towards the cost of your returning approval books back to Sue and Pat who run our Tewkesbury Approvals Office. To join our 'Approvals' Club simply tell Pat what countries / subjects you collect and whether you collect mint & or used... STOP/Start Service any time...

BANGLADESH			
2626		PROVISIONAL OVERPRINTS ON THE ISSUES OF PAKISTAN 1971-1973: Housed in five substantial dark green 22 ring type albums the extensive and mainly written up collection sets the scene commencing with three leaves mint Pakistan definitive series 1962-1970, followed by mint GOVERNMENT OF BANGLADESH types. LIBERATED BANGLA DESH, BANGLADESH Official Surcharges, Liberation Forces, and onwards devolving into used overprinted series, very substantial collection of covers interspersed from time to time by various types/sections mint handstamped issues etc. Noted varieties, multiples, Regions, the whole backed up by copious quantity apparently all different Post Offices with handstamps, duplicated used ranges, stockbook mint handstamp issues, and more, with main focus upon the definitive series. Extensively written up, a significant amount of study has already been invested in the collection, but there is still much more that may be done by research/study extending/taking the collection further forward. Bangladesh appears to have come of age. Whereas some time ago there appeared to be abundance of availability, these days there is little genuine material on the market. Although we have given this a broad 'rounded' description please request images to do justice to the collection, although with so much present images will almost certainly be representative. Certainly the most valuable most extensive collection Bangladesh we have ever witnessed, historically this feels like the start of a journey. Remarkable (Possibly a low 1,000 or two of stamps/items, too much to count whilst marvelling over) HEAVY/OVERSIZE LOT - OVERSEAS SHIPPING SURCHARGE APPLIES {CC} US2 PH Plate 71	£7049
